BASIC-ABSTRACT:

The replacement cap (1) has a rim gripping the rim of the can (3). The plastic cap incorporates a spoon whose extended handle (2) fits through a matching

aperture and shaft in the lid.

The spoon handle has a parallel shaft of round, cornered or other suitable form. The spoon handle slides down as far as is required to extract the full contents of the can.

ADVANTAGE - The can and contents are re-closed hygienically and preventing the release of odours from canned esp. cat and dog food.
